Dear Fabiana Marchini & Michel Beneventi

Re: Carbon Trust Assurance Limited - your successful re-certification

I am delighted to confirm that Nestlé Waters has successfully achieved compliance of their San Pellegrino, Levissima, and Acqua Panna product carbon footprints and product group carbon footprints against the contracted standards.

I have great pleasure in enclosing your certification letter, certificate of achievement and Label certificate. We would like to encourage you to display these certificates in your office to help promote your achievement. Key information about your assessment, including details of the boundary, footprint reduction, and certification dates, can be found in the certification letter. Please keep in mind that the certification period starts immediately from the day your letter is issued and will remain valid for 24 months, subject to the terms and conditions of our contract.

You and your marketing and communications colleagues (where possible) should also have already received an email with suggestions of how your organisation could use a Carbon Label to promote Nestlé Waters achievement to customers, staff, and other stakeholders. If you haven't received this or have any queries, please contact your client manager, Federico Soria, by email at Federico.Soria@carbontrust.com and he will endeavour to help you.

Thank you again for all your efforts in tackling climate change and congratulations to everyone at Nestlé Waters on achieving this certification; if you need any further assistance please don't hesitate to contact Federico Soria.

Yours sincerely,

A handwritten signature in black ink, appearing to read "M Hockaday".

Product Carbon Footprint and Reduction Certification Letter

CERT-13481

Dear Fabiana Marchini & Michel Beneventi,

Carbon Trust Assurance Limited (**'The Company'**) certifies that:

Nestlé Waters (**'You'**) has submitted for certification purposes and achieved a reduction in the re-calculated 221 Listed Carbon Footprints of the following 221 Listed Stock Keeping Units (SKUs) and 221 Listed Products sold Cradle-to-Grave (Business-to-Consumer) and marketed in the Listed Geographical Areas, in accordance with:

- Greenhouse Gas Protocol – Product Life Cycle Accounting and Reporting Standard (2011)
- ISO 14067:2018 - Greenhouse gases – Carbon footprint of products – Requirements and guidelines for quantification and communication
- Product Carbon Footprints: Requirements for Certification v2
- Product Consistency Criteria for Packed Water (PCC)

Nestlé Waters (**'You'**) has also submitted for certification purposes and achieved a reduction in the re-calculated Product Carbon Footprint Plus (PCF+) Footprints of the following product ranges measured Cradle-to-Grave (Business-to-Consumer) and marketed in the Listed Geographical Areas, in accordance with:

- Greenhouse Gas Protocol – Product Life Cycle Accounting and Reporting Standard (2011)
- ISO 14067:2018 - Greenhouse gases – Carbon footprint of products – Requirements and guidelines for quantification and communication
- Product Carbon Footprints: Requirements for Certification v2
- Product Consistency Criteria for Packed Water (PCC)

Listed Products, SKUs and Carbon Footprints

Cradle-to-Grave Carbon Footprint Subsequent Re-Certification Results

The tables below summarise the PCFs, Product Carbon Footprint plus (PCF+), and Reductions certified by the Carbon Trust, with the full sets of certified results provided in Appendix 1: Full list of certified PCF footprints (gCO₂e/litre) reductions (without overheads) and Appendix 2: Full list of certified PCF+ footprints including overheads (gCO₂e/litre). This is the second time that these PCF Results have been certified by the Carbon Trust.

The reductions are calculated on a PCF basis i.e. not including overheads. They compare 2022 results against 2021 re-baselined results, and 2018 re-baselined results.

A PCF+ footprint includes all emissions in a PCF with the addition of emissions from one or more non-attributational processes. The following non-attributational processes are included in the PCF+ footprints reported in Appendix 2:

- Overheads.

For full details on the scope and methodology behind the PCF+ Results, please refer to the Product Emissions Report.

Previous Certification Letter Reference: **CERT-13335**

Product Group	Geographic Area	Total certified SKUs	Total Reducing CO ₂ SKUs
Acqua Panna	Italy	12	11
Acqua Panna	Germany	11	9
Acqua Panna	Switzerland	10	9
Acqua Panna	US	8	8
San Pellegrino	All listed markets ¹	224	164
Levissima	Italy ³	23	20

¹ See Appendix 2

Cradle-to-Grave Reduction Assessment Results

The Carbon Trust has certified the PCF reductions set out in Appendix 1. The reductions set out in the table below for each Product Group do not include overheads. The reduction results have been obtained by comparing the certified unrounded footprints for years 2018 and 2021 against the certified unrounded footprints for year 2022 for equivalent listed SKUs. Please see Appendix 2 for the reductions achieved by each Product Group including overheads.

Product Group	Geographic Area	2022 gCO ₂ e/litre without overheads	2021 gCO ₂ e/litre without overheads	Reduction 2021 vs 2022 (%)	Reduction 2018 vs 2022 (%)
Acqua Panna	Italy	221.6	230.2	-4%	-4%
Acqua Panna	Germany	463.8	510.0	-9%	-21%
Acqua Panna	Switzerland	282.5	313.0	-10%	-27%
Acqua Panna	US	786.6	846.2	-7%	-12%
San Pellegrino	All listed markets ²	511.7	541.6	-6%	-11%
Levissima	Italy ³	174.6	179.8	-3%	-8%

Further communication opportunities are outlined under the Communications section of this letter. The rounded numbers are obtained according to the rounding rules contained in the Requirements for Certification v2.0.

The Company certifies the above Listed Carbon Footprints and Reductions based on the supply chains and data provided in the following model:

- 3833_Results_IBU_2018_2022_20230308
- 3833_Primary_data_formats_IBU_2018_2022_20230316
- 3833_3658_Resultats_IBU_format_2018_2021_20230502
- 3833_Primary_data_formats_IBU_2018_2022_20230424

² See Appendix 2

³ The 'Italy' product group footprint additionally represents Malta, which comprises <0.3% of production volumes and has a <5% significantly different product group footprint.

Level of Assurance

This certification was carried out to a Reasonable Level of Assurance.

Materiality

It has been verified that all material non-conformities identified during the sampling performed on the footprint models submitted have been closed. If at any time and for whatever reason You or the Company identify any further non-conformities, the terms described in the Description of Service and General Terms and Conditions will apply. It is also Your duty to promptly inform the Company in writing.

Provision for material discrepancy

The Company has performed the certification in accordance with the applicable material discrepancy threshold: where actual errors, omissions or misrepresentations affect the final footprint result by the equivalent of 1% or more individually or 5% or more in aggregate they are predetermined to be a material discrepancy and therefore a non-conformity.

Certification Period

This Certification is valid for a period of 24 months from 01 June 2023 (the “effective date”) until 30 May 2025 subject to the provisions in this Certification Letter.

We will be in touch with you prior to the expiry of this certification to discuss your communications and reduction plans as well as re-certification. However, if you have any questions or would like to look into re-certification or reduction assessment at any time, please feel free to get in touch with us.

Exclusions

The following exclusions have been made:

- PET barrier on PET bottles, <0.1% of the total product carbon footprint.

Suspended Non-conformities

The following non-conformities were raised but considered suitable for action prior to the next surveillance and/or re-certification audit. In general, it is expected that Minor Non-conformities should be closed with higher priority than Observations.

Identifier	Finding	Planned action	Severity
1	The use of outdated emission factors does not impact the reduction assessment but it does impact the representativeness of the footprints themselves.	Shall be addressed by the Nestlé RDC in time for the next re-certification.	Minor non-conformity
2	rPET purchase invoices and use accounting do not entirely match, creating minor discrepancies between the rPET claimed in the carbon footprints versus the evidence provided.	Nestlé shall look to improve the consistency of data management.	Opportunity for Improvement
3	Italy and Malta product carbon footprint groups are grouped together rather than provided as separate results. This has been done because production volumes sold to Malta are <0.3% of total production volumes and the downstream geographic footprints are considered to be <5% different.	Nestlé shall submit separate product carbon footprint groups for Italy and Malta in the future.	Minor non-conformity
4	The product group footprint for San Pellegrino is challenging to verify because of the inclusion of duplicate SKUs in the total product list.	Improve the clarity and transparency of the scope and boundary of the product group footprint calculated for San Pellegrino.	Opportunity for Improvement

Communications

Any claims regarding the certification results or any other claims shall be made in accordance with the Product Carbon Footprint Requirements for Certification v2.0 and Brand Guidelines.

In accordance with the Product Carbon Footprint Requirements for Certification v2.0 and Brand Guidelines You are permitted to communicate the certified results and/or to claim a reduction commitment, as set out below and in any associated Annex.

Nestlé Waters IBU has achieved reductions for its San Pellegrino, Levissima, and Acqua Panna product groups between 2018 and 2022, and between 2021 and 2022. Nestlé Waters IBU has also achieved reductions for the 221 listed SKUs in Appendix 1.

Any claims or communication made during the Certification Period shall comply with the Product Carbon Footprints: Requirements for Certification v2.0 and Brand Guidelines. Any communications, other than those listed above, shall be submitted to the Company for prior approval and may be documented in an Annex of this Certification Letter at the Company's discretion.

For and on behalf of
Carbon Trust Assurance Limited

A handwritten signature in black ink, appearing to read "M Hockaday", written over a horizontal line.

Martin Hockaday,
Head of Assurance
